

HERE TO HELP IN THE FIGHT AGAINST

BACTERIA

Anti-Microbial brush back, resin and filaments inhibit the growth of bacteria and accumulation of moisture and dirt.

ANTI-MICROBIAL HYGIENIC TOOLS™

 SALMON PRODUCTS
ENGLAND
Salmon® Hygiene Technology

Maintaining the highest standards of cleanliness is paramount in the fight against allergens. The purple Anti-Microbial range is your best form of defence with a range of products containing silver-ion technology, inhibiting the growth of moulds, mildew and bacteria. Dramatically reduce the risk of cross-contamination with a range specifically designed for high care food production areas in a colour recognised across the industry. Harness the power of purple in your production area and win the battle in the fight against allergens.

- Resin-Set DRS® as standard, preventing filament loss
- Prevention of over 99% of bacterial contamination, including MRSA, E-Coli, Listeria spp and Campylobacter
- Anti-Microbial properties are not affected by time, cleaning chemicals or abrasion.
