

IMPROVING STANDARDS IN YOUR SECTOR

BAKERY AND CONFECTIONERY

Threats within this environment come mainly from physical contaminants that could cause a choking hazard, mould and allergens. Wherever possible, dry cleaning such as vacuuming, brushing or sweeping is undertaken.

All equipment needs to be deep cleaned on a routine basis to prevent infestations of pests, such as the flour moth. Mould can quickly invade any food manufacturing plant that provides the right combination

of organic residues and moisture and is prevalent in corners, tile grouting, silicone sealant, ingredients and even the end product. Mycotoxins may also be produced which can lead to food spoilage.

Poor staff practices can increase the likelihood of mould developing along with improper wet cleaning that allows the pooling of stagnant water instead of its elimination into drains.

JUST A SELECTION OF SOME OF THE IDEAL PRODUCTS FOR YOUR SECTOR...

**Very Soft Hand Brush
B863RES**

Ideal for: Very light particles, powders; multi-purpose; food manufacturing.
Size: 317 x 36mm

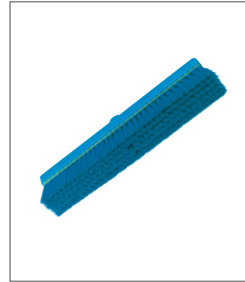

**Stiff Deck Scrub
B770**

Ideal for: Very heavy soiling; large areas; production environments.
Size: 300 x 75mm

**Open Plastic Dustpan
DP13**

Ideal for: Removing debris; catering, manufacturing.
Size: 325 x 315mm

**Very Soft Flat Sweeping Broom
B808RES**

Ideal for: Large areas; fine particles.
Size: 457 x 75mm

**Stiff Short Handled Brush
